

Woodman PRO ES699

Edge Sander

WOODMAN

Features

The sanding belt sands in both the horizontal and vertical position or any angle in between 0 to 90 degrees

Belt backing plate is made from a precision ground steel plate

Main sanding paper runs on precision ball bearings and is oscillated by a heavy duty worm and gear mechanism

100mm dust port for efficient dust collection at both sides of sanding belt

The front cast iron table can be moved both up and down and also back and forward in relation to the sanding plate
