

NS-NiftyLift30 Nifty Lift 30kg Wheelie Bin Lifter

The Nifty Lift is a manually operated binlifter that aids in the lifting and emptying of wheelie bins into dumper bins using gas struts. Designed to lift up to 30kg at a time, the Ecolift is perfect for retail outlets, small offices and factories that dispose of paper and general waste and are required to empty their wheelie bins once or twice a day.

The lifting action is a “full swing” tip operation which enables it to be compact in size. For more than 2 lifts a day we recommend the 50kg Ecolift model.

SPECIFICATIONS:

- Safe lifting capacity of 30kg
- Lifts 120L and 240L bins
- Manual operation (assisted lift)
- Schools, factories and retail outlets
