

# IT ADDS UP.

Since the late 1890s, Cincinnati Inc has delivered innovation, endurance, and performance to fabrication machinery, including to laser cutting machines for the past 25 years. To power their new range of CO<sub>2</sub> laser cutting machines, Cincinnati have partnered with PRC Laser to enhance their heritage by embracing the new ideas and technology that PRC offer.

- + Innovation
- + Reliability
- + Low Running Cost
- + Low Service Cost
- + Remote Diagnosis via the Internet
- + Built to Last

**CINCINNATI**<sup>®</sup>  
CINCINNATI INCORPORATED

**PRC**<sup>®</sup>  
**LASER**  
INNOVATIVE LASER SOLUTIONS

## FIT A NEW PRC LASER TO YOUR EXISTING MACHINE

You don't need to buy a new machine to reap the benefits PRC's innovations of:

- + Low Gas Consumption (via GEM Filter Technology)
- + Lifetime Electrodes and Glassware
- + No Turbine Rebuilds
- + Remote Diagnosis
- + 2 Year Warranty

Need an upgrade? Replace your tired laser with a 2.5kW PRC for as little as \$135K+GST, or rent one and leave all the service costs to us.

Need more power? A 4kW PRC for only \$175K+GST.

**For further information call Industrial Laser for full details.**
