Tare:	2700g
Bottle Dimensions, (Ø x Hieight) (mm):	Ø100 x 330
Bottle Volume:	~
Transport Options:	Special Courier

BROMIC
group

Description

Suitable for MIG welding of aluminium and all TIG welding

In many cases, disposable cylinders are cheaper than refilling reusable cylinders. Non-refillable cylinders often save time and do not require periodic re-certification. The 2.2 litre disposable gas cylinders have a much larger capacity and are filled to a much higher pressure than conventional disposable cylinders currently available.

Features

- Contains 100% Argon
- Working pressure: 110 bar
- Tare 2700g
- Contains 242 lt Argon
