## 450 TONNE POWER HYDRAULIC HOSE CRIMPING MACHINE

**\$2,990** inc. GST

### CRIMP450

- Crimping Range 6-50mm  $\phi$  / 1/4"-2"  $\phi$
- Max. Crimping Force: 450T/4000KN
- Opening:  $\pm 24$ mm
- Rated pressure: 31.5 MPa
- Motor Power/voltage: 240V / 2.2KW Motor / Single Phase
- Crimping period: 15 Seconds
- Die: 9sets
- Weight: 280kg
- Machine Size: 670x430x950 mm

## SPECIFICATIONS

Designed to crimp Hydraulic Hoses in the horizontally position this unit comes standard with 9 sets of dies.

These standard dies will give you the range to crimp from 6mm up to 50 mm (1/4" up to 2")

Approx. 200pcs per hour production rate

CRIMP450 hose crimping machine has equipped with computer numerical control system, fast crimp and good quality. This machine features high crimp accuracy, big force, low noise and easy to operate. It makes the mould base division to be more even through the double inclined plane eight-flap mould seat equipped with a high accuracy guiding device. CRIMP450 hose crimping machine is mainly used for crimping processing for high pressure hydraulic hose assembly in the mechanical engineering. It can also be used for crimping steel pipes, especially large pipes and irregular shape pipes. This machine features small and portable appearance, big force, low noise and easy to operate. The buckling amount can be precise adjusted through a scale. It makes the mould base division to be more even through the double inclined plane eight-flap mould seat equipped with a high accuracy guiding device.
