

NS-PS-15P Pallet Straightener with 15 Pallet Capacity

Pallet Wedge is used for straightening stacks of standard Australian Chep or Loscam style pallets. This unit helps align pallets side-to-side and front to back. This pallet wedge can be used indoors or outdoors and uses no electricity. Feeling uneasy about using the wall or a structural support column to straighten pallets. In just seconds the Pallet Straightener can make sure a stack of pallets is perfectly squared and ready to go

Feature:

- 15 Pallet Capacity
- Suits standard Chep or Loscam style pallets
- Heavy duty RHS construction with 16mm base plate
- Durable sandblasted and powder coated finish

Minimum Pallet Height: 1100x 1100
